

A Gout Home remedy in 2 Hours

More and more **gout** victims are turning to **natural gout** home remedies in preference to mainstream drug-based drugs which are very pricey, have a range of nasty side effects, and only work whilst being taken. And there are a whole range of natural remedies for gout that you can take.

Very Effective Gout Home Remedy is Baking Soda (Bicarbonate of Soda)

I have used this one myself very successfully. This natural gout home remedy has been known to start working in as little as 2 hours in order to get rid of the pain of gout and reduce the signs and symptoms.

- This natural remedy can work so effectively because it has the ability to dissolve **uric acid** crystals in the joints.
- It also can make **uric acid** a lot more soluble so it's excreted more easily.
- And, because it's taken with lots of water, helps the kidneys to flush excess uric acid out of your body.

As I Said Above, this Kind of Remedy is Taken in Water

You add 1/2 teaspoon of baking soda in order to a large glass of water and mix thoroughly until completely dissolved. Then drink a glass first thing in the morning, one every Three to five hours during the day, and then one glass before bedtime. Repeat until the symptoms have gone. Note: don't exceed 4 teaspoons in a 24 hour period.

- But, simply because baking soda is high in sodium you must change to a salt-free diet while taking this particular gout home remedy.
- And if you suffer from high blood pressure, you must talk to your doctor for their permission before taking it.
- As I said above I have found this particular home remedy to be very effective.
- But, of course, it can only be used within a **gout attack**.
- You can't take it on a daily basis to try to prevent attacks.
