

Can Apple cider vinegar Cure Gout In The Foot? Get the Answer Here

Before discussing if apple cider vinegar can cure **gout** in the foot or not, we really need to get a good understanding of what causes gout in the first place...

All begins with having higher-than-normal levels of **uric acid** in your body. Under these conditions -- known as hyperuricemia -- microscopic needle-like crystals can form and be deposited in your joints, for instance gout your foot.

There are two main reasons exactly why you might have excessive **uric acid** and those are; your kidneys aren't working from full potential and so can't process and excrete the normal levels of acid your body produces, or, your body is actually producing too much for your or else healthy kidneys to deal with.

- Whichever the reason, and it can be both working at the same time, you end up with excess uric acid in your blood.
- So you should reduce this excess if you are in order to cure your gout in the foot.

There are many **gout remedies** out there, which includes drug-based medicines, but here we are looking at using apple cider vinegar...

Apple cider vinegar has been used down the ages for all manner of conditions, including gout, as well as has proved to be pretty effective.

Terms of gout, it is believed that, when drunk, apple cider vinegar changes your blood pH in a way that helps to alleviate high uric acid blood levels. But it all means being used to take care of the swelling and painful pain of gout, when applied directly to the affected area, e.g. gout in the foot.

- But, in order to be effective, it should be raw, un-distilled, unpasteurized apple cider vinegar.
- The kind that has a sediment in the bottom of the bottle, called the 'mother.'

Apple Cider Vinegar as a Drink to Treat Gout in the Foot

For drinking, all you need to do is mix 2 to 3 teaspoons of vinegar into a large glass of water as well as stir thoroughly. Drink a glass 3 times per day. I can drink this no issue, but if you can't abide the taste, just add a little honey.
